

## **Brownfields 2021 Job Training Grant Fact Sheet**

### **Energy Coordinating Agency, Philadelphia, PA**

#### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Environmental Workforce Development and Job Training Grant funds are provided to nonprofit organizations and other eligible entities to recruit and train unemployed and underemployed residents from communities affected by environmental pollution, economic disinvestment, and brownfields and place them in environmental jobs. Since the program was created in 1998, EPA has funded 335 job training grants totaling over \$72 million through the Environmental Workforce Development and Job Training program. A total of 18,541 individuals have been trained and 13,751 individuals have been placed in full-time careers related to land remediation and environmental health and safety. The average starting wage for these jobs is more than \$14 an hour. This equates to a cumulative placement rate of approximately 74%.

#### **Job Training Grant**

*\$182,900.00*

EPA has selected the Energy Coordinating Agency for an Environmental Workforce Development and Job Training grant. The Energy Coordinating Agency plans to train 54 students and place 48 in environmental jobs. The training program includes 160 hours of instruction, including: 40-hour HAZWOPER; OSHA-10; Mold and Moisture; Lead Renovation, Repair, and Painting; and Whole House Air Sealing and Insulation. Students who complete the training will earn up to four federal certifications. The Energy Coordinating Agency is targeting returning citizens, Latino residents, unemployed and underemployed residents, and recent high school graduates of North Philadelphia's low-income West Kensington neighborhood. Key partners include Clean Water Action, En-Staff, Johnson Controls International, the Energy Coordinating Agency, JEVS Human Services, and Solar States.
